YOUNG LEADERS ASSOCIATION

Encourage young professionals in your organization to step up and make an impact.

Young Leaders Association

Since 1997, the Young Leaders Association has recognized individuals who are committed to volunteerism, improving our community and personal growth.

Members are 40 years old or younger and annually give $1,000 or more. Through a step-up program, they contribute at least $500 the first year, a suggested gift of $750 the second year and $1,000 the third year or by age 40, whichever comes first. To qualify for membership, donors may combine their gift with their spouse's gift.

Member benefits

Throughout the year, members are invited to exclusive social events, receive information on current volunteer opportunities in our community and have the opportunity for professional development through the popular "Lunches with Leaders" series. They are also included in the local "Leaders in Giving" membership registry.

Host a Young Leaders Association meeting

- Invite employees 40 years old or younger to a special meeting to learn about the Young Leaders Association.
- Ask your United Way representative to schedule a member of the Young Leaders Steering Committee to speak at this meeting. They can explain the benefits of joining the Young Leaders Association. Meet the Steering Committee here.
- Encourage new or potential Young Leaders to attend the Young Leaders Prospecting Event. Check the website for information, as it is available, or provide your United Way representative with a list of those who are interested so they can receive an invitation.
